Sorry, both of your emails had zip files that were blocked by EPA's too-smart software. Can you re-send the files individually?

Jason and Dylan,

Just skimming through TV air permits, it looks like these initial facilities might be subject to subpart OOOOa requirements and worthy of inspection. If you could send me their most recent FOR's and ACCs, I'll review those for corroborating information.

If you have any other leads, let me know.

Thanks,
